The Morenci Leader

Mrs. J. C. Cadot left here on Monday morning for Kansas City where she will be the guest of relatives.

After a several months delightful visit with Mr. and Mrs. Wm. A. Staab. Mrs. W. K. Staab left for her home in Northampton, Mass., on Friday morning.

Mrs. J. A. Wild accompanied by her daughter Mrs. Scott Brubaker and family left here on Tuesday morning for Long Beach, California, where they will spend the summer months.

Mrs. E. F. Hastings entertained a number of ladies from D. Hill at her home on Wednesday afternoon of this week. The affair was a sewing bee during the afternoon and a social time was also enjoyed. Cooling refreshments were served during the affair that was pleasing to all.

Mr. Went-And-Cut-It —Here's Mr. 'Gets-It'

The New Plan Corn Cure That's as Sure as the Rising Sun.

"Glad to meet you!" says the razor to the corn. "I'll bleed for you!" says the corn to the razor. Razors and corns love each other. Corns love to be cut.

"Why, O Why, Did I Do It? 'Gets-It' for Me After This—If I Live!" he cut, picked, gouged, salved, plastered and jerked out. They grow faster. Mr. and Mrs. Went-And-Cut-It realize it now—they use "Gets-It" instead—it's the wonderful, simple corn-cure that never fails. Stops pain. You apply it in 2 seconds. It dries at once, the corn is doomed. Nothing to stick to the stocking or press on the corn. It means good-night to plasters, salves, diggers, razors and toe-bundling. You can wear smaller shoes. Your corns "come right off," clean as a whistle. Never inflames healthy flesh. The world's biggest selling corn cure. "Gets-It" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill. Sold in Clifton and Recommended as the World's Best Corn Remedy by CLIFTON DRUG COMPANY

The home of Mr. and Mrs. Al Eschwege was made brighter last week by the arrival of a baby girl. Al has been wearing the "proverbial smile" ever since.

Mrs. J. C. Efromson and son and Mrs. Dr. Blatherwick and son left here on Friday morning for Los Angeles and neighboring beaches where they will visit during the heat of the summer.

Miss Edith Johnson and W. Porri were the attendants at the Morrison-Prouty wedding held at the home of Mr. and Mrs. J. A. Albrecht in Clifton on last Saturday morning.

Mrs. G. M. Robison and daughter, Miss Florence, will leave here this week for New York City where they will make an extended visit. Miss Florence will continue her study of music during their stay.

Sergeant and Mrs. C. M. Staples spent several days the first of this week in Duncan. During his stay Sergeant Staples opened a recruiting office in that place offering a chance to any in that vicinity to enlist for border duty.

The wedding of Miss Sarah Ellen White and Louis P. Harrison, both of San Diego, California, was solemnized at the home of the bride on Saturday evening, May 30th, at 9 p. m. Judge Lally officiating. Only a few friends were present during the ceremony and after a short social time the young couple went to their new home in the Lally house above the hotel. Both young people are recent newcomers in Morenci and Mr. Harrison is employed as stenographer and interpreter in the general office of the D. C. M. Co.

In response to the suggestion that the boys of Company M., would enjoy a few luxuries while in camp at Douglas, subscription lists were in evidence among both the D. C. M. and A. C. Co. employees last week and the contributions given so freely were certainly commendable. As a result several shipments of cigars, tobacco and cigarettes were made to the boys that will help to show the interest of the entire community in the local company. Another shipment of cakes, candies and other dainties was made up this week by a number of ladies who wished to contribute something to make their stay as bright as possible. A contribution box at the Morenci Club is also showing a steady increase and the general spirit of the public portrays the kindly feeling for the entire company.

J. W. Brighton, director of the Morenci Club, will leave on next Wednesday morning for a month's vacation. His trip as outlined during the thirty days will cover about twelve thousand miles touching Chicago, Detroit, and Montreal, then across the continent on the Canadian Pacific to Prince Rupert, Canada, down to Seattle, San Francisco, San Diego and back to Morenci. Mr. Brighton will make short visits with many old friends during his long trip and is looking forward to a most enjoyable time. Rev. A. Krichbaum will be in charge of the Club during his absence.

"Carmen" as acted by Geraldine Farrar, drew a large crowd at the Morenci Club picture Theatre on Wednesday evening of this week and the picture was thoroughly enjoyed according to the many who voiced their opinion. On next Monday evening Dustin Farnum will appear in the well-known play, "The Gentleman from Indiana," while on Wednesday evening Mary Pickford in "Madam Butterfly," will be shown. An all star cast playing "Nedra" from the well-known McCutcheon book, will be pictured on Thursday evening and on Saturday evening, "The Nation's Peril" played by Earl Metcalf will be shown.

Following the largest and most successful year of school work in Morenci Public Schools, Professor C. A. Goggin left here last week for his ranch in New Mexico near Albuquerque where he will enjoy his summer's vacation. About a year ago Prof. Goggin handed his resignation to the school board to take effect this year and at a meeting of the Board some time ago Prof. Lutz, of Douglas, was elected to fill the position. Since then Prof. Goggin has had several excellent offers and has been elected superintendent of the Metcalf schools. In justice to the work done by Prof. Goggin and the high standard of the schools, as well as the two handsome new school buildings added while he was in charge, he cannot be commended too highly, and his methods of handling his pupils and restraining harmonious co-operation of his teaching staff each year were admirable. The best wishes of the entire community accompany him to his new home.

Morenci Lodges

Morenci Lodge No. 22 I. O. O. F. Meets every Wednesday evening. Visiting Brother cordially invited to attend. Wm. Conibertson, Noble Grand Edward Robles, Secretary.

The management of the Arizona Copper Company does not consider it advisable to permit bathing in the deep water end of their large reservoir during the summer months, unless certain conditions are fulfilled, enabling the company to maintain a watchman during the hours for swimming, and to install certain safety devices considered necessary under existing conditions. All who are interested in this sport and wish to use the reservoir should give their names to Arthur Crowfoot, superintendent, and as the expense of the watchman should be covered by those using the reservoir, the number of names will determine the amount to be charged. The hours for swimming will also be set for a certain time and all precautions taken to safeguard against any accident. The company wants to be as liberal as possible with their large reservoir, but the promiscuous swimming of youngsters all ages and sizes has made it necessary to make the above announcement.

RECRUIT'S MOTHER GOD-SPEEDS HIM

"Be Sure Patriotism and Not Adventure Moves You; Blessings With You."

PHOENIX, May 19.—Believing that it would be a good example for all fathers and mothers who are prohibiting their sons from joining the colors of the First Arizona Infantry at Douglas, through mistaken motives, Adjutant General Harris yesterday gave out a copy of a telegram mailed him by Lieutenant Ming now on recruiting duty in the northern part of the state. The telegram was sent to a boy who enlisted in the regiment, by his father and mother, and carries a registered appeal of patriotism. The telegram is as follows:

Fresno, Cal., May 15, 1916. "E. C. Ferguson, Williams, Ariz. "We would object to regular army because the trouble may soon blow over and you would then be bound for those years for post duty. Take careful stock of your motives, and be sure patriotism and not adventure moves you; then if you feel your country needs you, join the national guard. Should you decide you must go to the front, our blessings will go with you at all times."

"MOTHER AND FATHER." Harris was very much pleased with the telegram and stated that if more fathers and mothers looked at the matter in the same way, there would be less holding back at the present time when the state and country need men so badly. The young man in question who received the above heartfelt telegram is now at Douglas.

REPORT REVIEWED BY COMMITTEE OF ENGINEERS

Arizona State Industrial Preparedness Committee Meets and Checks Report to Be Sent to National Board.

For the purpose of checking the report to the National Committee on Industrial Preparedness, before it is sent east, the members of the Arizona State Industrial Preparedness Committee met this week in Warren. Those present at the meeting were the chairman, Captain John C. Greenway, James B. Girard, N. S. Guld, J. G. McGregor, David W. Jones and Secretary F. A. Nathan.

The report, as it will go forward, will contain a complete inventory of the mineral resources of the state of Arizona, including the estimated production for the state during the present year. No figures are obtainable from the local committee as they are confidential and will be filed for future reference. The mineral investigation included the metals, copper, gold, silver, lead, zinc, antimony, manganese and molybdenum.

The committee's surveyors determined that there were sixty-eight plants and shops in the state susceptible of being utilized by the navy and war departments in case of war. The report will be forwarded to Howard E. Coffin, of New York, chairman of the committee, for final tabulation. This work will be handled by W. S. Gifford, the chief statistician for the American Telephone and Telegraph company, which corporation has donated his services to the committee. Gifford is rated as the most expert in this line of work in the entire country.

The members of the state committee returned to their homes last night.

INSPIRATION MINE WONDER OF WORLD

George L. Walker, perhaps the greatest copper writer in the world in the Boston Commercial says that Inspiration, if it produces 100,000,000 pounds of copper this year at a cost of 8 cents per pound and sells it at 25 cents, will make a profit of \$17,000,000 or \$2,000,000 more than has been expended for the purchase and equipment of the property.

Mr. Walker says: "Inspiration did not begin producing copper regularly until June, 1915. Up to that time the stupendous sum of \$15,000,000 had been expended to acquire its properties, develop and equip them, and hundreds of the stockholders were wondering whether the mine ever would be worth what it had cost."

"It is now reasonably certain that Inspiration will earn back in profits during the twelve months of 1916 the entire amount that has been invested in its properties. If it produces 100,000,000 pounds of copper at a cost of eight cents and sells it at an average of 25 cents, as now seems likely, it will make a profit of \$17,000,000. One of the large holders of Inspiration figures that the stock is worth at least \$80 a share."

"This year's operations should result in net earnings of \$15 a share, or more than 32 per cent on the present selling price of Inspiration stock. Within a few months the company should be producing at the rate of 120,000,000 pounds of copper annually at a cost of eight cents a pound. With such an output inspiration could earn \$7.50 a share on a 15 cent metal market, or 10 per cent on a valuation of \$75 for its stock."
